My Camry doesn't have a zillion dollar stereo or paint job, but what it DID have was a very juicy blackberry cobbler spill on the passenger seat tan fabric upholstery. After they did their magic, it's impossible to tell anything ever happened. An astonishing achievement!

I had a problem with my pickup bed cover which I had not bought at Final Touch. Todd looked at it, ordered a part for it and installed it all in less than 24 hours. This got us out of quite a tight spot as we were leaving town on a holiday weekend. Final Tpuuch has gained a devoted customer.

Final Touch Crew has worked on my car after two car accidents. Each time, my car has left their shop looking better than new. The service has been outstanding, and prices are extremely reasonable. Todd and his staff have bent over backwards to make the process as painless as possible for me. Dealing with insurance companies is difficult and stressful and Todd took much of that stress off of me and saw to it that my car was fixed correctly, no corners were cut, and I was pleased with the job in the end. I can't possibly recommend Todd and Final Touch Crew highly enough for their excellent work. 5 stars just aren't enough!!!

**\*\*Highly Recommended\*\***

WOW! Final Touch Crew, Where do I start?!..... FTC has done work to both of my personal cars as well as many of my clients, from window tinting to custom paint, completely satisfying me with every detail and at a price I was willing to pay! If it has wheels Final Touch is the place to go! **\*\*Ask for Todd\*\***

The whole Final Touch Crew was super nice and more then willing to work with me, they helped me get all the pink I could get on my new car. The tint job is awesome, the inside lights in the cup holders and under the dash and seats is way better then I ever expected. And a BIG thanks for telling me about getting my brake calipers painted pink, soooo cool. I recommend Final Touch Crew for anything you want to do to your vehicle.
